EXPERIENCE

Frontend Developer

Comcast

📅 Aug 2025 – Ongoing

📍 Cairo

- Developed an enterprise HR Management System using Angular, TypeScript, RxJS, and RESTful APIs, covering employee management, roles and permissions, attendance, scheduling, rewards, and notifications.
- Built reusable and responsive Angular components for complex HR workflows, including employee profiles, role-based access control, attendance configuration, and workforce management.
- Integrated RESTful APIs using Angular HttpClient and handled authentication with JWT-based access control.
- Implemented dynamic scheduling interfaces with validation workflows for employee qualifications, shift conflicts, overtime risks, and site availability.
- Developed data-driven dashboards and management interfaces for workforce, attendance, performance, and operational insights.
- Worked in an Agile/Scrum environment using Jira for sprint planning, task tracking, collaboration, and project delivery.

Junior Frontend Developer

Dole Food Company

📅 Jan 2025 – Aug 2025

📍 Remote

- Developed responsive web interfaces using Angular, TypeScript, HTML, and CSS for internal business applications.
- Built reusable Angular components and reactive forms to support employee and operational workflows.
- Integrated RESTful APIs using Angular HttpClient and handled asynchronous data flows with RxJS.
- Implemented client-side routing, form validation, and reusable UI patterns to improve application consistency and maintainability.
- Collaborated remotely with backend developers and designers to translate requirements and UI designs into functional frontend features.
- Participated in Agile/Scrum development, including sprint planning, daily stand-ups, code reviews, and task tracking.

SUMMARY

Frontend Engineer specializing in Angular and TypeScript, with experience building reusable, responsive web applications and integrating RESTful APIs. Strong focus on clean component architecture, performance optimization, and maintainable UI development. Experienced in Agile/Scrum environments, using Jira for sprint planning, task tracking, and project collaboration.
